# Subject index

S = Supplement

## Abdominal CT scans

unsupervised, assessment of outcome, lower gastrointestinal tract S2P24

## Aberdeen

Royal Infirmary, cost analysis of fracture of neck of femur, elderly patients, UK 185

## Accidents

road accidents/falls/burns involving elderly people, review of literature 346

## Acute admissions

geriatric unit, relationship between nutritional status/clinical course 131

## ADL

effect of movement disorder clinic, Parkinson's disease S2P22

## $\beta$ -Adrenergic response

cardiac, effect of aerobic exercise/yoga in healthy elderly subjects S2P4

## Age

association with foot position awareness, proprioception/stability 67

association with respiratory symptoms/chest infection in older patients with urinary tract infection S2P18

association with threshold for detection of ankle inversion/eversion in upright stance, proprioception 58

effect on readmissions to department of geriatric medicine, illness type/place of discharge/length of stay, comparison S2P25

effect on respiratory symptoms in older adults S2P13

relationship with changes in lower urinary tract dysfunction in Parkinson's disease 499

relationship with cutaneous aryl hydrocarbon hydroxylase activity, Wistar and Brown Norwegian rats 213

relationship with diabetes duration/cardiac autonomic function S2P4

relationship with diurnal variation in urine production, nocturia S2P5

significance in mobility after proximal femoral fracture 308

## Ageing

drug metabolism, monocyte model, identification of cytochrome P450 enzymes, aryl hydrocarbon hydroxylase induction S2P5

erythrocyte membrane fluidity, aspirin treatment, stroke patients S2P25

risk of 373

## Alzheimer's disease

central role of inclusion bodies, Medical Research Council/Research into Ageing Workshop 170

## Amlodipine treatment

elderly hypertensives, ambulatory 24-hour blood pressure changes, effect on cerebral perfusion S2P4

## Ankle

proprioception, inversion/eversion in upright stance, threshold for detection, association with age 58

## Anticholinergic drugs

inhaled, oxitropium bromide, exercise capacity/dyspnoea, improvements in elderly patients with chronic obstructive pulmonary disease 278

## Antidepressants

placebo-controlled trial in physically ill elderly people, fluoxetine S2P16

## Aortic stenosis

significant, high prevalence in elderly patients, basal systolic murmurs S2P14

## APACHE score

measurement of illness severity in elderly medical patients, comparison with semi-formalized subjective method/problem-list-based method S2P21

## Apoptosis

programmed apoptosis, Medical Research Council/Research into Ageing Workshop 169

## Arginine vasopressin

age-associated changes in response to water load/sodium load 151

## Artificial feeding

naso-gastric tube/percutaneous endoscopically placed gastroscopy for elderly people after stroke 533

## Aryl hydrocarbon hydroxylase

cutaneous activity, relationship with age, Wistar and Brown Norwegian rats 213

induction, identification of cytochrome P450 enzymes, drug metabolism/ageing, monocyte model S2P5

## Asians

elderly, high risk of vitamin D deficiency/osteomalacia, Britain 103

stroke presentation/treatment/outcome, comparison with Caucasians, UK S2P11

## Aspiration

oxygen desaturation on swallowing, potential marker, acute stroke 267

stroke, assessment by videofluoroscopy/water-swallowing test, comparison S2P12

## Aspirin

erythrocyte membrane fluidity, ageing, stroke patients S2P25

## Asthma

acute severe, assessment of hospital admission chest radiograph in elderly patients S2P13

relationship between immunoglobulin E/eosinophils/pulmonary function in older adults S2P14

## Atrial fibrillation

chronic, improvement of control, xamoterol, comparison with xamoterol plus digoxin 321

improvement of heart rate control/effort tolerance, digitoxin/xamoterol S2P18

in the elderly, success/maintenance of cardioversion, clinical/echocardiogram assessment of suitability S2P3

## Australia

wish to die in elderly people, association with physical health/mental health/sociodemographic factors, epidemiological survey 389

## Autonomic function

cardiac, relationship with diabetes duration/age S2P4

## Balance

Hierarchical Assessment of Balance and Mobility, validity/reliability/responsiveness to change, comparison with other analytical tools 126

## Bandaging

high compression, healing of leg ulceration, associated factors 407

**Barium enema**

replacement by CT scans, investigation of colon in elderly patients S2P19

**Baroreflex sensitivity**

effect of aerobic exercise/yoga in healthy elderly subjects S2P3

**Barthel ADL Index**

one year after stroke, comparison between scores of relatives/occupational therapist 398  
validity/reliability for geriatric/stroke/hip fracture patients 393

**Barthel Index**

measurement of disability, acute stroke, comparison with OPCS disability instrument 54

**Basal systolic murmurs**

high prevalence of significant aortic stenosis in elderly patients S2P14

**Bengalis**

elderly, mental health/health status, London, UK 474

**Binswanger's disease**

vascular dementia, CT and MRI white matter periventricular changes, letter 454

**Birmingham**

performance of consultants, comparison with Liverpool, audit engine, UK S2P20

**Bladder retraining**

with oxybutynin, efficacy in elderly ambulant patients with detrusor instability, randomized controlled trial 287

**Blood pressure**

24-hour ambulatory monitoring, healthy elderly people, reference values, effect of data editing 91  
ambulatory, effect of long-term potassium supplementation in elderly hypertensives S2P17  
ambulatory 24-hour, effect on cerebral perfusion, elderly hypertensives with amlodipine treatment S2P4  
control in elderly subjects with hypertension/diabetes, haemodynamic response to head-up tilt 315  
conventional/24-hour, effect of hospitalization, comparison of reproducibility 25  
effect of haemoglobin concentration/red blood cell count/haematocrit S2P3  
measurement in elderly patients, optimum cuff size S2P15  
relationship with white matter low attenuation, cognitive impairment Memory Disorders Clinic 411

**Body temperatures**

circadian, in elderly/young patients, comparison, effects of cold stress 485

**Bone**

osteoporosis, Medical Research Council/Research into Ageing Workshop 170

**Bone density**

improvement in osteoporosis, cyclical etidronate/calcium therapy, over-75-year-olds S2P8  
measurement in healthy premenopausal, perimenopausal and postmenopausal women, peripheral quantitative computed tomography 447

**Bone mass**

correlation with zinc, postmenopausal type 1 osteoporosis 303  
unilateral stroke associated with muscle weakness, affected side S2P7

**Bone mineral density**

at hip/spine in older men and women, relationship with tooth loss 217  
of hip, reduced in elderly patients with Parkinson's disease 326

**Borders region**

hip fracture audit, one-year follow-up, Early Supported Discharge Scheme, Scotland, UK S2P7

**Bradburn Affect Balance Scale**

patient profiles, use on geriatric wards, comparison with Geriatric Depression Scale 416

**Bradford**

stroke patients, hospital/home-based rehabilitation after discharge from hospital, UK 49

**Brain infarct size**

importance in predicting outcome after stroke, measurement by CT scans 515

**Britain**

elderly Asians, high risk of vitamin D deficiency/osteomalacia 103

**British Geriatrics Society**

training recommendations for senior house officers, audit standard, assessment of effectiveness S2P16

**Bronchodilator response**

assessment of reversibility of chronic airways obstruction in elderly patients, slow vital capacity S2P12

**Burns**

involving elderly people, review of literature 346

**Calcium**

etidronate, cyclical osteoporosis therapy, improvement in bone density, over-75-year-olds S2P8

**Calcium oxalate monohydrate**

crystalluria in elderly patients, treatment with naftidrofuryl oxalate, France 464

**Canadian Study of Health and Aging**

primitive reflexes, dementia 375

**Cardiac cachexia**

in the elderly, role of eating disorders/depression S2P20

**Cardiac surgery**

functional status/cognitive impairment in elderly/young patients after cardio-pulmonary bypass, comparison S2P23

**Cardio-pulmonary bypass**

functional status/cognitive impairment in elderly/young patients after cardiac surgery, comparison S2P23

**Cardiopulmonary resuscitation**

determination of capability to take part in Do Not Resuscitate decisions, Pre Arrest Morbidity scores/Prognosis After Resuscitation scores, calculation for elderly inpatients S2P8

**Cardioversion**

success/maintenance, atrial fibrillation in the elderly, clinical/echocardiogram assessment of suitability S2P3

**Carers**

coping with dementia sufferers, strategies, relationship with depression 495  
Parkinson's disease patients, comparison of family histories, inheritance factors, postal questionnaire S2P14  
satisfaction with acute stroke management 519

**Casemix**

geriatric medicine, England/Wales, UK 1  
Resource Utilization Groups, assessment of validity in geriatric medicine, England/Wales, UK 5

**Caucasians**

stroke presentation/treatment/outcome, comparison with Asians, UK S2P11

**Cell death**

apoptosis, Medical Research Council/Research into Ageing Workshop 169

**Central heating**

effect on stroke prevention in winter S2P11

**Cerebral perfusion**

ambulatory 24-hour blood pressure changes, elderly hypertensives with amlodipine treatment S2P4

**Chest infection**

association with age/respiratory symptoms in older patients with urinary tract infection S2P18  
nosocomial, teeth/mouth hygiene in the elderly S2P21

**Chest radiograph**

hospital admission in elderly patients, assessment, acute severe asthma S2P13

**Chronic airways obstruction**

assessment of reversibility in elderly patients, slow vital capacity S2P12  
relationship between immunoglobulin E/eosinophils/pulmonary function in older adults S2P14

**Chronic obstructive pulmonary disease**

exercise capacity/dyspnoea, improvements in elderly patients with inhaled anticholinergic drug, oxitropium bromide 278

**Clerking pro forma**

clinical assessment of stroke patients, improvement of recording, audit 43

**Clinical course**

relationship with nutritional status, acute admissions to geriatric unit 131

**Clinical research**

opinions/attitudes of elderly volunteers, survey S2P6

**Co-amilorfruse**

orthostatic oedema in the elderly, use of diuretics S2P24

**Coagulation factors**

acute stroke/transient ischaemic attacks, hypercoagulability, comparison S2P15

**Cobalamin deficiency**

relationship with mental impairment in elderly people, review 536

**Cochrane Collaboration**

health care of elderly people 265

**Cognitive capacity**

Timed Test of Money Counting, physical performance test, reliability/validity 257

**Cognitive function**

relationship with digit discrepancy/visuospatial neglect, stroke patients S2P9  
relationship with Mini-Mental State Examination, normal elderly adults, componential study 440

**Cognitive impairment**

after cardio-pulmonary bypass, functional status in elderly/young patients, comparison S2P23  
association with diabetes, community-based study of elderly subjects, Melton Mowbray, UK 421  
determination of capability to take part in Do Not Resuscitate decisions, Pre Arrest Morbidity scores/Prognosis After Resuscitation scores, calculation for elderly inpatients S2P8  
in elderly patients, effectiveness of subcutaneous/intravenous fluids, comparison S2P5  
predictors of hospital contact by very elderly people 382  
relationship with cobalamin deficiency in elderly people, review 536  
role in osteoporotic syndrome, hip fracture 481  
white matter low attenuation, relationship with brain CT scans/vascular risk factors, Memory Disorders Clinic 411

**Cognitive performance**

geriatric inpatients with dementia, effect of occupational therapy strategies 222

subclinical hypothyroidism, elderly community residents, PAQUID survey, South-West France 235

**Cold stress**

effects in circadian body temperatures of elderly/young patients, comparison 485

**Colon**

investigation by CT scans in elderly patients, replacement of barium enema S2P19

**Compression stocking**

comparison of two types, leg ulcer recurrence/acceptability, randomized trial 490

**Conservative management**

urinary incontinence, impact on attitudes/quality of life of older community-dwelling people 283

**Creatinine**

serum levels in older adults, relationship with health status/medications, Established Populations for Epidemiologic Studies of the Elderly, USA 142

**Crystalluria**

calcium oxalate monohydrate, treatment with naftidrofuryl oxalate in elderly patients, France 464

**CT scans**

abdominal, unsupervised, assessment of outcome, lower gastrointestinal tract S2P24  
brain, relationship with white matter low attenuation, cognitive impairment, Memory Disorders Clinic 411  
brain infarct size/location, importance in predicting outcome after stroke 515  
changing requirements in stroke S2P18  
investigation of colon in elderly patients, replacement of barium enema S2P19

**Cytochrome P450 enzymes**

aryl hydrocarbon hydroxylase induction, drug metabolism/ageing, monocyte model S2P5

**Cytokines**

aggravation of malnutrition/hypercatabolism, severe pressure sores, elderly patients 37

**Data editing**

effect on 24-hour ambulatory blood pressure monitoring reference values, healthy elderly people 91

**Day hospitals**

geriatric 89

**Deaf-aid communicators**

use in Salford hospital, survey, UK 160

**Deep vein thrombosis**

risk after stroke/fractured proximal femur S2P26

**Delirium**

prediction in elderly patients, model S2P16

**Dementia**

carers coping with sufferers, strategies, relationship with depression 495  
cognitive impairment, white matter low attenuation, relationship with brain CT scans/vascular risk factors, Memory Disorders Clinic 411  
diagnosis, use of Hachinski Ischaemic Score, variability in scoring 242  
geriatric inpatients, cognitive performance, effect of occupational therapy 222
